

# My Reading History is Here!

**Would you like to keep a list of everything you check out from the library? Now you can!**

## **Can library staff or others see what I've checked out?**

No. Only you can see what you have checked out by logging into My MARINet with your library card number and PIN. Library staff can not see patrons' Reading Histories.

## **Will it show me the items I've checked out so far?**

Unfortunately, no. Titles begin to show up on your Reading History with the first item you check out AFTER you start the process. It will then record your checked out items from that point forward, unless you turn it off.
